

**Application Form: uni 2 beyond in 2022**  
**Application Form B – Confidential**

uni 2 beyond is a social inclusion initiative that supports people with an intellectual disability to participate in university life on an audit (non-enrolled) basis for two years. The purpose of uni 2 beyond is to increase the social and community participation of each student, through experiencing peer to peer interaction and becoming members of the University of Sydney community, as well as providing opportunities for the development of daily living and life skills, and for increased independence.

Students take subjects of their choice and interests to expand their knowledge and achieve their future goals. They attend lectures and tutorials as audit students and take part in university social life. Each student is matched with peer mentors, who provide support and guidance in academic and social settings.

This form is designed for professionals who know the applicant and can provide information about their support needs.
